

TYPO3.Flow - Bug # 38004

Task # 27561 (Accepted): Complete documentation

Status:	Accepted	Priority:	Should have
Author:	Francois Suter	Category:	- Documentation -
Created:	2012-06-13	Assigned To:	Karsten Dambekalns
Updated:	2014-11-07	Due date:	
PHP Version:			
Has patch:	No		
Complexity:			
Affected Flow version: FLOW3 1.1.0 beta 2			
Subject:	Missing CheatSheet folder for Getting Started manual		
Description			
Part II of the documentation is the Getting Started tutorial. The following file: Documentation/TheDefinitiveGuide/PartII/ModelAndRepository.rst mentions (in the first tip block) a CheatSheet folder which is supposed to contain the resulting code. This is missing. It would be very helpful to have it. It's possible to take bits from the Blog package, but it makes the tutorial far less friendly. It generally leads to having errors and exceptions and can lead to quite some frustration while going through trial and error to get the examples running.
