Updated:	2012-06-21		Due date:	
Sprint:				
PHP Version:	5.3			
Has patch:	Yes			
Complexity:	no-brainer			
Subject:	Add information about the context being cleared using the flow3:cache:flush command			
Description				

At the moment using the cache clearing commands, it's not really visible what is being cleared. Since the cache clearing only clears for the current cli context when using the command, we should add which context has been cleared to the output.

[TASK] Add context information to cache clearing commands

When using the flow3:cache:flush commands only the current
cli context is cleared. This is not clear when using the
commands and this change add the context information
to the command output.
