

TYPO3.Eel - Feature # 38379

Status:	New	Priority:	Should have
Author:	Tobias Liebig	Category:	
Created:	2012-06-25	Assigned To:	
Updated:	2013-04-08	Due date:	
Subject:	Implement a Eel-ViewHelper		
Description			
<p>To make Eel available in Fluid-Templates, Eel (or Fluid) should provide an simple ViewHelper. It should accept an eel expression argument (string, might already be parsed/rendered by fluid), passes that to Eel and return the result. The Fluid TemplateVariableContainer should be passed as the Eel "Context" to access the Fluid variable values within Eel.</p>
