<b>Sprint Focus:</b>			
<b>Subject:</b>	Cleanup TCEform FlexForm section HTML and JS code		
<b>Description</b>			
<p>The existing JS code for TCEform FlexForm sections is messy, mostly inline and not easy to maintain, the first part of the cleanup streamlines the HTML and the JavaScript.</p> <ul style="list-style-type: none"><li>- Adds a jQuery version of the JavaScript features for TCEform FlexForms, and include them in the TYPO3 rendering call when accessing TCEforms FlexForms.</li><li>- Adds clean "t3-flex" prefixed CSS classes for all components of FlexForms sections. Added styling for the components with the new classes</li><li>- Removes all existing inline JS code for FlexForms</li><li>- Adds minor bug fixes (no title output for section elements, preview text will be rendered on load on hidden section elements)</li><li>- Reviewed existing ACTION code in TCEmain for flexform elements</li></ul>

[CLEANUP] Rewrite JS/HTML part of Flexform sections

- Adds a jQuery version of the JavaScript features for TCEform FlexForms, and include them in the TYPO3 rendering call when accessing TCEforms FlexForms. \* Adds clean "t3-flex" prefixed CSS classes for all components of FlexForms sections. Added styling for the components with the new classes \* Removes all existing inline JS code for FlexForms \* Adds minor bug fixes (no title output for section elements, preview text will be rendered on load on hidden section elements) \* Reviewed existing ACTION code in TCEmain for flexform elements

One minor side note is that sorting is not working, which will immediately be replaced with jquery ui in a followup patch.

Resolves: #38736

Releases: master
