

## Core - Bug # 38758

Task # 38755 (Accepted): Usability issues collected on the UX sprint

<b>Status:</b>	Accepted	<b>Priority:</b>	Should have
<b>Author:</b>	Steffen Ritter	<b>Category:</b>	Backend User Interface
<b>Created:</b>	2012-07-08	<b>Assigned To:</b>	
<b>Updated:</b>	2015-01-12	<b>Due date:</b>	
<b>TYPO3 Version:</b>	6.0		
<b>PHP Version:</b>			
<b>Complexity:</b>			
<b>Is Regression:</b>	No		
<b>Sprint Focus:</b>			
<b>Subject:</b>	Template module must only use session settings on startup		
<b>Description</b>			
<p>The template module uses user session to store the last submodule/page combination and opens that on first launch.</p> <p>Sadly it uses this information, too, when redirecting/working with the module.</p> <p>The module should not use the session value as soon as other parameters are hand over (e.g. Only Start up). If needed additional "return values" must be added to the request URL.</p>
