Revision 934c2c42 - 2012-07-18 16:06 - Karsten Dambekalns

[!!!][BUGFIX] Fix return values of Doctrine\Repository magic methods

Overrides __call from EntityRepository to make the methods return
the expected QueryResultInterface. Also adds support for countBy().

This is marked as a breaking change because if you relied on the
specific return values before, you need to adjust your code.

Along the way the code inside __call() is simplified.
