

TYPO3.TYPO3CR - Bug # 3889

Status:	Resolved	Priority:	Must have
Author:	Robert Lemke	Category:	FLOW3 Persistence
Created:	2009-07-13	Assigned To:	Robert Lemke
Updated:	2011-05-05	Due date:	
Subject:	Reinjected dependencies are overwritten with NULL		
Description			
If a dependency property is not tagged with @transient, it will be overwritten with NULL by the DataMapper right after the dependency has been reinjected (while thawing the property).

Revision 1a091032 - 2009-07-13 18:48 - Robert Lemke

[+BUGFIX] TYPO3CR (FLOW3 Persistence): Even dependencies which are not properly tagged with @transient annotations are now reinjected.

Previously the DataMapper would set those properties to NULL. Resolves #3889

[~TASK] FLOW3 (Object): Optimized the autowireProperties() method a bit, using more efficient reflection methods.
