TYPO3 Version:	4.7				
PHP Version:	5.3				
Has patch:	No				
Branch:					
Complexity:					
Is Regression:					
Subject:	#1297759968: Exception while property mapping at property path "":Object with identity "X" not found.				
Description					
<p>Hi there,</p> <p>after some googeling I couldn't find a solution...</p> <p>I have installed: T3 4.7.2 with the latest git pull from git://git.typo3.org/TYPO3v4/Extensions/news.git Installed the default TypoScript Settings and the plugin in a page for list and another for detail view. After calling the link for the detail view I'll get this error:</p> <p>#1297759968: Exception while property mapping at property path "":Object with identity "3" not found.</p> <p>Tx_Extbase_Property_Exception thrown in file /Users/aName/Sites/sources/typo3_src-4.7.2/typo3/sysext/extbase/Classes/Property/PropertyMapper.php in line 128.</p> <p>I'm currently not in the mood to dig deeper into the PropertyMapper ... ;-) but I fixed the detailAction() in the NewsController so that I can use the news extensions until there is a bugfix. My fix:</p> <pre>/** * Single view of a news record * * @param integer \$news * @param integer \$currentPage current page for optional pagination * @return void */ public function detailAction(\$news = 0, \$currentPage = 1) { if(\$news == 0){ \$news = NULL; }else{ \$news = \$this->newsRepository->findByUid(\$news); } }</pre> <p>Not that nice but it works for me...</p> <p>Thanks for fixing sometime, Cyrill</p>					

History

Sorry, I mean this 8-)

```
/**
 * Single view of a news record
 *
 * @param integer $news
 * @param integer $currentPage current page for optional pagination
 * @return void
 */
public function detailAction($news = NULL, $currentPage = 1) {

    if( (int)$news > 0 ){
        $news = $this->newsRepository->findById($news);
    }
}
```

- Status changed from New to Needs Feedback

do you use the new property mapper?

#3 - 2012-07-27 08:55 - Cyrill Schumacher

I've added `config.tx_extbase.features.rewrittenPropertyMapper = 1`
to the `setup.txt` of your news modul and still got the same error.

#4 - 2012-07-27 09:05 - Georg Ringer

i guess this is because you have activated it?

see <http://forge.typo3.org/issues/35084>

#5 - 2012-07-28 12:40 - Cyrill Schumacher

Indeed, if I fix the core like mentioned here:

<https://review.typo3.org/#/c/10378/2/Classes/Persistence/Backend.php>

the detail view works now fine!
