TYPO3.Flow - Bug # 39286

Status:	Resolved	**Priority:**	Should have
Author:	Bastian Waidelich	**Category:**	Error
Created:	2012-07-26	**Assigned To:**	Bastian Waidelich
Updated:	2012-08-07	**Due date:**	

PHP Version:	5.4
Has patch:	No
Complexity:	
Affected Flow version:	Git 1.2 (master)
Subject:	FLOW3's var_dump() still chokes on Doctrine collections

Description

The patch provided with #37481 didn't solve the issue unfortunately.
Now, if you debug entities with properties of type \Doctrine\Common\Collections\Collection the debugger throws an exception because it tries to cast an array to string.
The reason is, that \Doctrine\Common\Util\Debug::export() returns an array or stdClass while we expect a string.

[BUGFIX] FLOW3's var_dump() still chokes on Doctrine collections

Using Doctrine\Common\Util\Debug::export() to render doctrine
collections leads to an exception because our Debugger expects
a string and doctrine's debugger returns an array.
This change fixes this by post processing the result.

History

#1 - 2012-07-26 12:08 - Bastian Waidelich

- Subject changed from FLOW3's var_dump() chokes on Doctrine collections to FLOW3's var_dump() still chokes on Doctrine collections

#2 - 2012-07-26 12:11 - Gerrit Code Review

- Status changed from New to Under Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at http://review.typo3.org/13071

#3 - 2012-07-26 15:32 - Robert Lemke

- PHP Version set to 5.4

- Affected Flow version changed from Git 1.0 to Git 1.2 (master)

Just for the record, the exception (cause by a Notice warning) is only thrown with PHP 5.4.x – in PHP 5.3 the array will simply be cast into "Array".

#4 - 2012-07-26 16:49 - Gerrit Code Review

Patch set 2 for branch **master** has been pushed to the review server.
