TYPO3.Flow - Bug # 39414

Status:	New	**Priority:**	Should have
Author:	Linh	**Category:**	- Documentation -
Created:	2012-07-31	**Assigned To:**	
Updated:	2012-12-15	**Due date:**	
PHP Version:			
Has patch:	No		
Complexity:			
Affected Flow version: FLOW3 1.1.0 rc 2			
Subject:	Security Documentation		
Description			

At the section "Using the authentification controller" it is documented to call http://localhost/flow3/authenticate. When I try to call the url I receive a 404 error. I look up the flow3 package routes.yaml and tried http://localhost/flow3/authentication which worked for me. Maybe the documentation have to be updated.
