TYPO3.Neos - Bug # 39433

Status:	Resolved	**Priority:**	Must have
Author:	Adrian Föder	**Category:**	
Created:	2012-08-01	**Assigned To:**	Adrian Föder
Updated:	2012-08-31	**Due date:**	
Subject:	functional TypoScript\RenderingTest fails on Windows		
Description			

due to incorrect path-separator-handling, the FunctionalTests fail with messages similar to

    1) TYPO3\TYPO3\Tests\Functional\TypoScript\RenderingTest::basicRenderingWorks
    TYPO3\Fluid\View\Exception\InvalidTemplateResourceException: Template file
    "C:UsersafoederFLOW3PhoenixBasePackagesApplicationTYPO3.TYPO3TestsFunctionalTypoScrip
    t/Fixtures//WebsiteTemplate.html" could not be loaded

this is caused by *DIR* being used as base path, being '\' on windows and causing these errors.

Revision 9cf23a69 - 2012-08-31 11:20 - Adrian Föder

[BUGFIX] Fix template path in Windows for Functional Tests

A backslash as path separator in plain TypoScript seems
to make it disappear after parsing. Since usually forward
slashes and resources:// should be used however, this is
hard-coded fixed in the appropriate Functional Test.
