Updated:	2012-08-07	Due date:	
Subject:	Eel Parser RegEx should support quoted strings containing curly brackets		
Description			
Currently, the eel parser regex doesn't recognize expressions like the following as valid: "some {\$context->unwrap()} string with 'quoted stuff'"			
This is because the regex <code>/^\\${{[^}]*}\$/</code> stops on the first occurrence of a closing curly bracket <code>}</code> .

[FEATURE] Support quoted strings containing curly brackets in Eel expressions

This enhances the Eel parser regexp to support quoted strings containing curly brackets.

Change-Id: I1bd9e3d92f4bb560ed2e3cbea34de8baecf101cd

Resolves: #39564

History

#1 - 2012-08-07 00:58 - Gerrit Code Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at <http://review.typo3.org/13487>

#2 - 2012-08-07 12:45 - Sebastian Kurfuerst

- Status changed from New to Resolved

- Assigned To set to Alexander Berl

thanks Alexander for working on this :)
