

TYPO3.Fluid - Bug # 39604

Status:	Resolved	Priority:	Must have
Author:	Alexander Berl	Category:	Core
Created:	2012-08-08	Assigned To:	Alexander Berl
Updated:	2012-08-10	Due date:	
Has patch:	No		
Affected Flow version:	FLOW3 1.1.0 rc 2		
Subject:	TemplateParser unquoteString does not trim escaped quotes correctly		
Description			
Assume the following case: <f:alias map="{foo: '\bar\'}"> {foo}</f:alias>			
Expected: Output 'bar' (including the quotes)			
Actual: Output 'bar\			
Cause: unquoteString uses trim() to strip starting and ending quotes, however trim is not restricted to trimming only one char on both sides, hence removes both trailing single quotes from the input string, leaving "'\bar\'" to be unescaped.			
Solution: preg_replace should be used instead with a non-repeating pattern, e.g. preg_replace('/(^ \\\\$)/', "", \$quotedValue)
