[BUGFIX] Fix warning about property injection in test

The DependencyInjectionTest testcase has a test called
injectionInParentClassIsDoneOnlyOnceOnCreationOfObject, leading to FLOW3
trying to use the inject method for the property
"ionInParentClassIsDoneOnlyOnceOnCreationOfObject"…

This change renames the test method to fix this.

**Revision 45f872a5 - 2012-08-28 13:02 - Bastian Waidelich**

[TASK] Detect inject methods more strictly

Currently every method starting with "inject" is considered
for property injection by the ConfigurationManager.
That includes methods named "inject" or "injectionFoo".

This change makes the detection more strict to only accept
methods that start with "inject" followed by an upper case
character.
