

TYPO3.Fluid - Feature # 39936

Status:	New	Priority:	Should have
Author:	Stefan Neufeind	Category:	ViewHelpers
Created:	2012-08-18	Assigned To:	
Updated:	2013-01-21	Due date:	
Has patch:	No		
Subject:	registerTagAttribute should handle default values		
Description	<p>The function registerTagAttribute is used to register tags and can't handle default values.</p> <p>This is a follow-up from a merged change in extbase-fluid.</p> <p>Verified it applies to FLOW3-fluid as well: TYPO3.Fluid/Classes/Core/ViewHelper/AbstractTagBasedViewHelper.php</p>		

History

#1 - 2012-08-18 21:01 - Stefan Neufeind

From the extbase-fluid-commitmessage:

In AbstractTagBasedViewHelper there is no option for a default-value.

However registerArgument() is already capable to receive a default-value. So the viewhelper just needs to pass it through.

#2 - 2013-01-21 23:29 - Tymoteusz Motylewski

Please accept this forward port from TYPO3 CMS, to make keeping synch easier.

Thanks!
