Subject:	Security Report of CeBit '08		

Description

Today I was on the CeBit in Hannover.

I read this article: http://t3n.yeebase.com/aktuell/news/newspost/cebit-kostenlose-quellcode-analyse-von-web-anwendungen/1271/

So I tried it and copy my version on a usb-stick.

So until now there no vulnerable statements. So FLOW3 is pretty secure.
