I'll take care of this. Same for TRUE and NULL

#### #3 - 2012-09-26 19:12 - Wouter Wolters

AFAIK there are no occurrences anymore that or lowercase. Nightly job at Jenkins does not find a violation.

I just grepped the sources and could not find any valid problems anymore with lowercased false, true or null. There are just valid occurrences in javascript code and the contrib sources.
