Subject:	Error when accessing wizard module and wizard_create_pages is disabled

Description

When extension wizard module I've got error:

#1270853878: TYPO3 Fatal Error: Extension key "wizard_create_pages" is NOT loaded! (More information)

BadFunctionCallException thrown in file
typo3\sysext\core\Classes\Extension\ExtensionManager.php in line 89.

the cause of this error is mapping in
typo3\sysext\wizard_crpages\class.tx_wizardcrpages_webfunc_2.php

require_once \TYPO3\CMS\Core\Extension\ExtensionManager::extPath('wizard_create_pages') .
'Classes/Controller/CreatePagesWizardModuleFunctionController.php';

but wizard_create_pages is not real extension but just folder with one file
