[BUGFIX] Remove broken Font- and Image-Factory

With the latest version of the imagine library, the concrete implementations of `\Imagine\Image\FontInterface` and `\Imagine\Image\ImageInterface` expect a constructor argument. This breaks functionality of the respective factories.

This change simply removes the custom factories for those two classes. As imagine images & fonts shouldn't be required stand-alone, this shouldn't be a problem.

Change-Id: Ia3dcf8fc5a400e2aeb2d33996c669504e01eb2d5
Fixes: #40348
