Subject:	Add link examples

Description

Task #40510 introduced sub-chapters for structuring the examples outlined in "Chapter 1". The part about links just shows how to link to Forge. It should contain general examples about linking, and also about cross-linking, in particular to the officials manuals referenced in the global settings YAML file.

[TASK] Add linking examples

The manual should contain all possible examples of linking,
in particular the cross-linking using Intersphinx.

Labels are also added to each section in Chapter 1.
