TYPO3 Version:	6.0		
PHP Version:			
Complexity:			
Sprint Focus:			
Subject:	Clean up extensionmanager test directory		

Description

There are still those empty 'old' test files from the namespace script
that moved the tests to the Tests/Unit subfolder. They are removed now.
Additionally the test class comments to state the name of the class
under test are removed, this information is redundant and is obvious
from the test class and file name.
