

TYPO3.Flow - Feature # 40555

Status:	Accepted	Priority:	Must have
Author:	Timo Kiefer	Category:	Core
Created:	2012-09-03	Assigned To:	Karsten Dambekalns
Updated:	2013-05-21	Due date:	
PHP Version:			
Has patch:	Yes		
Complexity:	easy		
Subject:	Missing command arguments parameter in Core\Booting\Scripts::executeCommand()		
Description			
Currently you can not execute a sub command (http://flow3.typo3.org/documentation/guide/partiii/commandline.html#executing-sub-commands) with command arguments.			
I added my solution for this feature as a patch.			

History

#1 - 2012-09-12 10:07 - Karsten Dambekalns

- Status changed from New to Needs Feedback
- Assigned To set to Karsten Dambekalns
- Target version set to 2.0 beta 1
- Complexity changed from no-brainer to easy

As a feature this will go into 1.2 only - and for this the patch needs to be adjusted, as since 1.1 executeCommand() has a third parameter.

#2 - 2012-09-19 09:24 - Timo Kiefer

I'm sorry I can't understand the adjustment for the third parameter.
In my solution I added a fourth parameter for the command arguments.

#3 - 2012-12-10 13:45 - Karsten Dambekalns

- Status changed from Needs Feedback to Accepted
- Target version changed from 2.0 beta 1 to 2.1

#4 - 2013-05-21 13:28 - Robert Lemke

- Target version deleted (2.1)
