[TASK] Improve UX of setup process

This change improves the setup process:

- Catch exceptions in setup steps and render them as flashmessage
- Render link to TYPO3 wiki (<http://typo3.org/go/exception/>) for warnings and errors* Improve error messages if PHP binary can't be determined correctly* skip PHP_BINARY constant if it's empty (PHP bug?)* Throw exception if DB can't be created/connected to in db stepChange-Id:
