

TYPO3.Neos - Feature # 40624

Status:	Closed	Priority:	Should have
Author:	Adrian Föder	Category:	Frontend
Created:	2012-09-04	Assigned To:	Adrian Föder
Updated:	2013-04-11	Due date:	
Subject:	Appereance of div.t3-contentelement wrapping div's should be configurable		
Description			
<p>currently, obviously every element carries an automatically rendered surrounding div like</p> <pre>1<div class="t3-contentelement typo3-typo3-text" id="c344fb619-e1a3-4496-8c7d-c163aa2224ae"></pre>			
<p>Since this may end up in even breaking layouts (for example it prevents "margin collapsing", http://www.w3.org/TR/CSS2/box.html#collapsing-margins), it should be made configurable which Content Type wrap, if however, should be rendered when not logged in.</p>			

History

- Status changed from New to Closed

could be done with TS or modified templates AFAIK.
