Subject:	sysexts cli and integrity have no ext_emconf.php

Description

There are two new sysext folders which have no ext_emconf.php and therefore do not appear in the EM: cli and integrity

Is this by intention?

History

#1 - 2012-09-11 16:19 - Sebastian Michaelsen

For me EXT:phpunit does not load because it tries to read the ext_emconf.php files of all loaded Extensions. So I want to correct the priority of this issue to "Must have".

#2 - 2012-09-24 10:00 - Sebastian Michaelsen

EXT:cli doesn't exist anymore since #40949. So it's only EXT:integrity that has no ext_emconf.php.

#3 - 2012-09-24 20:42 - Wouter Wolters

EXT:integrity will also be move inside another extension.

- Status changed from New to Resolved

Neither cli nor ingetrity extension exist anymore in 6.0.
