[BUGFIX] Only initialize Inline Editing for marked properties

Before this change, every tag with a "property" attribute was marked as contenteditable, leading to lots of initialization overhead in Create.js. Furthermore, properties such as HTML content was also inline editable.

Now, we only match every property which is marked as t3-inline-editable; a CSS class being added by the "t3.contentElement.editable" ViewHelper.

Furthermore, we fix the bug that HTML should be only updated after pressing "apply" in inspector.

Resolves: #40786

Change-Id: I8c9471f745a79bd0679201120ffc3f825eb967f4
