<b>Subject:</b>	hallo controls broken --> because images are not there anymore		
<b>Description</b>	<p>The Hallo editor (see screenshot) uses icons based on Fontawesome (<a href="http://fontawesome.github.com/Font-Awesome/">http://fontawesome.github.com/Font-Awesome/</a>). However, these icon CSS classes <b>collide</b> with the glyphicons provided by Twitter Bootstrap 2.</p> <p>As a result, the editing controls are not visible anymore (see screenshot). To reproduce, just select a text in editing mode and see the black boxes to appear ;-)</p> <p>To fix, we either find a way to include fontawesome icons in a way that they do not collide with our twitter bootstrap icons, or we add the necessary CSS and use twitter bootstrap icons inside the hallo editor.</p>
