

## Core - Bug # 40795

Task # 40095 (Resolved): Move core to namespaces

<b>Status:</b>	Resolved	<b>Priority:</b>	Should have
<b>Author:</b>	Mario Rimann	<b>Category:</b>	FormEngine aka TCEforms
<b>Created:</b>	2012-09-10	<b>Assigned To:</b>	
<b>Updated:</b>	2012-09-11	<b>Due date:</b>	
<b>TYPO3 Version:</b>	6.0		
<b>PHP Version:</b>	5.3		
<b>Complexity:</b>			
<b>Is Regression:</b>			
<b>Sprint Focus:</b>			
<b>Subject:</b>	Exception in TCA tree after Namespace changes		
<b>Description</b>			
<p>When trying to create a new "News Category" record in the list module, the following Exception is thrown:</p> <p>#1: PHP Catchable Fatal Error: Argument 1 passed to TYPO3\CMS\Backend\Tree\AbstractTree::setNodeRenderer() must be an instance of t3lib_tree_renderer_Abstract, instance of TYPO3\CMS\Core\Tree\TableConfiguration\ExtJsArrayTreeRenderer given, called in C:\xampp\htdocs\currenttrunk\typo3\sysext\backend\Classes\Form\Element\TreeElement.php on line 91 and defined in C:\xampp\htdocs\currenttrunk\typo3\sysext\backend\Classes\Tree\AbstractTree.php line 7</p> <p>This happens with current TYPO3-Core from Git (6.0-dev) and current Git-Version from tx_news (but seems to be a bug in the core, since the extension only tries to use a field-type from TCA).</p>

[BUGFIX] Wrong type hint used after namespace changes

One place has been missing while changing all the class names

Change-Id: I73d5e3f006377ea46079ac9f17f30c817ada7d4a

Resolves: #40795

ReleaseS: 6.0

Reviewed-on: <http://review.typo3.org/14508>

Reviewed-by: Jigal van Hemert

Tested-by: Jigal van Hemert

### History

**#1 - 2012-09-10 17:04 - Claus Due**

Note, this appears to happen because t3lib\_tree\_renderer\_Abstract is no longer part of the inheritance tree for \TYPO3\CMS\Backend\Tree\AbstractTree.

It will no longer be possible to check for implementations of parent classes and interfaces (in a way that works equally on pre-6.0 and 6.0). Sorry guys.

## #2 - 2012-09-10 17:10 - Tymoteusz Motylewski

this is indeed bug in core

method

TYPO3\CMS\Backend\Tree\AbstractTree::setNodeRendererer [1]

is defined as:

```
public function setNodeRendererer(\t3lib_tree_renderer_Abstract $nodeRendererer) {
```

but it should use namespaced class name

[1]

## #3 - 2012-09-11 08:08 - Gerrit Code Review

- Status changed from New to Under Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at <http://review.typo3.org/14508>

## #4 - 2012-09-11 08:30 - Georg Ringer

- Status changed from Under Review to Resolved

- % Done changed from 0 to 100

Applied in changeset commit:434e8629c40212545e4562718e442f3655c211e4.

## #5 - 2012-09-11 20:35 - Christian Kuhn

- Parent task set to #40095
