TYPO3.Flow - Bug # 40840

Status:	Resolved	**Priority:**	Must have
Author:	Christian Jul Jensen	**Category:**	Configuration
Created:	2012-09-11	**Assigned To:**	Christian Jul Jensen
Updated:	2012-09-11	**Due date:**	

PHP Version:	
Has patch:	No
Complexity:	
Affected Flow version:	Git 1.2 (master)
Subject:	Wrong escape character in Configuration/Settings.yaml

Description

In yaml backslash is not a valid escape character in single quoted strings, the only allowed escape-sequence is '' (two single quotes) resulting in one single quote in the string. In double-quotes it works as in PHP.

http://yaml.org/spec/current.html#id2534365

In newer versions of the Yaml component this will result in a fatal error, it was previously tolerated
