PHP Version:	5.4		
Has patch:	No		
Complexity:	easy		
Affected Flow version:	Git 1.2 (master)		
Subject:	Display error message if Data is not writeable		
Description			

Currently the mkdir() command in Bootstrap doesn't check for any warnings if the directory Data or Data/Persistent could not be created.

If these directories can't be created, a proper error message should be displayed.
