| **Created:** | 2012-09-17 | **Assigned To:** | |
| **Updated:** | 2012-09-18 | **Due date:** | |

| | |
|---|---|
| **PHP Version:** | 5.3 |
| **Has patch:** | No |
| **Complexity:** | |
| **Affected Flow version:** | Git 1.2 (master) |
| **Subject:** | CsrfProtectionAspect fails with paginate view helper and empty f:link action argument |

**Description**

When Paginate ViewHelper is used in any template FLOW3 fails while adding Csrf token to the pagination links. It fails even after adding @FLOW3\SkipCsrfProtection as a known workaround for pagination.

Exact error seen is "The parameter class is expected to be either a string or an object ". With topmost backtrace lines as:

- ReflectionMethod::__construct(FALSE, "indexAction")

- TYPO3\FLOW3\Reflection\ReflectionService::getMethodAnnotations(FALSE, "indexAction", "TYPO3\FLOW3\Annotations\SkipCsrfProtection")

- TYPO3\FLOW3\Reflection\ReflectionService::isMethodAnnotatedWith(FALSE, "indexAction", "TYPO3\FLOW3\Annotations\SkipCsrfProtection")

One of the functional test for ViewHelper is also failing because of empty action.
