[BUGFIX] Fix jQuery undefined error in wireframe mode

In the original demo package jQuery is not included causing bootstrap
to throw an object is undefined error. This change makes sure jQuery
is included and removes the first try to include using an http request
to googleapi which could be a possible slow down in offline mode.

Change-Id: I22388d6c8c2e016d710866004b7c0f3f89ce7452
Resolves: #41014
