Core - Bug # 41084

Status:	Resolved	**Priority:**	Must have
Author:	Michael Schams	**Category:**	Install Tool
Created:	2012-09-20	**Assigned To:**	
Updated:	2012-09-23	**Due date:**	
TYPO3 Version:	6.0		
PHP Version:	5.3		
Complexity:			
Is Regression:			
Sprint Focus:			
Subject:	Installation: Cannot redeclare class t3lib_install		

Description

Trying to install TYPO3 version 6.0.0 beta2 but it fails with the following PHP error message:

[error] [client 127.0.0.1] PHP Fatal error: Cannot redeclare class t3lib_install in /var/www/blankpackage-6.0.0beta2/typo3_src-6.0.0beta2/t3lib/class.t3lib_install.php on line 39

The error occurs as soon as you try to access the Install Tool (to start the installation): http:// localhost/typo3/install/index.php

PHP 5.3.5-1ubuntu7.10 with Suhosin-Patch (cli) (built: Jun 19 2012 00:54:05)
Ubuntu version 11.04 (GNU/Linux 2.6.38-13-generic i686) Desktop Edition

Step-by-step:
(1) download and extract *blankpackage-6.0.0beta2.tar.gz*
(2) sudo chown -R www-data:www-data blankpackage-6.0.0beta2
(3) sudo touch typo3conf/ENABLE_INSTALL_TOOL
(4) http:// localhost/typo3/install/index.php
(5) white screen -> error in log file

If you do not create the ENABLE_INSTALL_TOOL file, the note appears, that you have to create it first. The problem occurs with the Blank Package as well as with the Introduction Package. Same steps as above for Introduction Package, but in this case you do not need to create the ENABLE_INSTALL_TOOL file (but the PHP error occurs).

History

#1 - 2012-09-20 14:28 - Tilo Baller

- File typo3_install_tool_problem.png added

Same here, but with **governmentpackage-6.0.0beta2**.

Step-by-step:
(1) tar -xvzf governmentpackage-6.0.0beta2.tar.gz
(2) sudo chown -R www-data:www-data governmentpackage-6.0.0beta2
(3) call in browser (remote server)
(4) see attached screenshot

ENABLE_INSTALL_TOOL file is already there in government package.

Debian Squeeze

```

#2 - 2012-09-21 14:42 - Torben Hansen

Same problem here.

#3 - 2012-09-22 08:29 - Dieter Bunkerd

Same problem here. With both the Introduction-Package and the dummy package.

#4 - 2012-09-22 13:24 - Christian Kuhn

This might be fixed with #41245. Additional question: is dbal loaded at this point in LocalConfiguration.php?

#5 - 2012-09-22 15:22 - Dieter Bunkerd

Positive. Patch in #41245 fixed it for me. Thanks.

dbal was NOT loaded in LocalConfiguration.php

#6 - 2012-09-23 04:48 - Michael Schams

Affirmative. Issue has been fixed and installation process works with latest sources in GIT.

Tested with/on:

PHP 5.3.5-1ubuntu7.11 with Suhosin-Patch (cli) (built: Sep 12 2012 18:49:41)

Ubuntu version 11.04 (GNU/Linux 2.6.38-16-generic i686) Desktop Edition

#7 - 2012-09-23 19:23 - Oliver Hader

- Status changed from New to Resolved

- Target version set to 6.0.0-RC1

- % Done changed from 0 to 100

Fixed with change in issue #41245
