Sprint Focus:			
Subject:	Media Element Flash fallback fails		

Description
See attached file, too. When adding a content of type media (mp3 and ogg) AUDIO-Tag in HTML5 works fine but the flash player fallback in IE 8 and IE 7 fails (Error inside player: File not found). In a forum thread I found 2 other guys describing identical error. Typo3 versions 4.7.4 and 6.0beta2.
