

TYPO3.Flow - Bug # 41524

Status:	Closed	Priority:	Should have
Author:	Pankaj Lele	Category:	Security
Created:	2012-10-02	Assigned To:	Bastian Waidelich
Updated:	2012-10-18	Due date:	
PHP Version:	5.3		
Has patch:	No		
Complexity:			
Affected Flow version:	Git 1.2 (master)		
Subject:	csrfToken not added to action links having action method name with more than 1 word		
Description	<p>In short: csrfToken is not added to links who's target action is "someOtherAction" but only works for action names like "someAction"</p> <p>After digging a little bit in code I found that UriBuilder->uriFor() makes the @action argument forcefully lowercase and hence \$this->reflectionService->hasMethod(\$className, \$actionName) in the CsrfProtectionAspect returns false.</p>		
Related issues:	duplicates TYPO3.Flow - Bug # 42083: CSRF token is not appended for actions w... Resolved 2012-10-17

Sorry, I didn't see this report (it would have saved me a lot of time).

I'm closing this as duplicate of #42083 now, the issue should be solved with <http://review.typo3.org/15765>

Please reopen if that's not the case!
