<b>Sprint:</b>			
<b>PHP Version:</b>			
<b>Has patch:</b>			
<b>Complexity:</b>			
<b>Subject:</b>	Add CGL rules for annotations		
<b>Description</b>			
<p>Since annotations are part of the code in FLOW3, we should add some more rules in the CGL documentation. E.g. it would be good to have a list of <i>all</i> annotations used in FLOW3 (including @aspect eg).</p> <p>And it should be stated which annotations are required in which cases.</p> <p>Additionally the order of annotation tags varies from class to class currently. My suggestion for a defined order is</p>			
<b>For classes:</b>			
<p>@version @license</p>			
<b>For constructor and methods in classes:</b>			
<p>// parameters/return type @param @return // validation @validate @dontvalidate // authors (we might get rid of this?) @author // API related @api @since @deprecated // additional annotations @see @todo</p>			
<b>For test cases:</b>			
<p>@test @dataProvider @expectedException</p>

**#1 - 2009-09-21 22:53 - Karsten Dambekalns**

- *Status changed from New to Accepted*
- *Assigned To set to Karsten Dambekalns*

For classes @aspect and @scope are missing. I'll check more thoroughly. I like the suggested order, so far.

**#2 - 2009-09-23 16:56 - Karsten Dambekalns**

- *Target version set to 1.0 alpha 5*

**#3 - 2009-09-24 14:16 - Karsten Dambekalns**

I'll commit the suggested change to the manual soon. I added lists like above to the CGL appendix. The required annotations are listed in the standard docblock examples, further explanation of FLOW3-specific annotations must be in the related chapters. Feel free to check my changes and comment if needed!

**#4 - 2009-09-24 15:00 - Karsten Dambekalns**

- *Status changed from Accepted to Resolved*
- *% Done changed from 0 to 100*

Applied in changeset r3221.
