TYPO3.Flow - Bug # 41848

Bug # 41843 (New): Composer and rename issues (umbrella issue)

Status:	Resolved		**Priority:**	Must have
Author:	Adrian Föder		**Category:**	Core
Created:	2012-10-10		**Assigned To:**	Christopher Hlubek
Updated:	2012-12-10		**Due date:**	

PHP Version:	
Has patch:	No
Complexity:	
Affected Flow version:	Git 1.2 (master)
Subject:	Core migration tool applies migrations twice

Description

With for example my MooTools.Packager repository located here: http://git.typo3.org/FLOW3/Packages/MooTools.Packager.git I get the following situation when running core:migrate then:

    Applying TYPO3.FLOW3-201209201112
      Migrating MooTools.Packager
    fatal: Could not switch to
    'C:/Users/afoeder/PhpstormProjects/acme/Distribution/Packages/Application/MooTools.Packager/Meta': No such file or
    directory
      [master c322f04] [TASK] Apply migration TYPO3.FLOW3-201209201112

   :

it can clearly be seen that the -1112 migration is applied twice.
Afterwards, the actual class files lay here:

`Classes/MooTools/Packager/MooTools/Packager/[heretheyare]`.

Associated revisions

Revision 03d6d6fd - 2012-10-18 17:53 - Christopher Hlubek

[BUGFIX] Apply PSR-0 code migration only to non-PSR-0 packages

This change adds a condition to prevent the code migration to move
classes inside the Classes directory if it is already in PSR-0 layout.

Additionally an already existing composer.json will not be overwritten
and a safeguard was added to AbstractMigration that checks if a file
that should be deleted actually exists.

Revision 77f148cd - 2012-10-19 09:04 - Adrian Föder

[BUGFIX] Workaround issues with multiline commit messages

In core migration functionality, particularily on windows
systems, the commit message is cropped at the first occurrence
of a newline character. This leads into trouble when the core
migration tool searches for the Migration: ... footers in the
commit history as they won't be there then.

History

#1 - 2012-10-12 10:48 - Robert Lemke

- Priority changed from Should have to Must have

- Target version set to 2.0 beta 1

#2 - 2012-10-12 10:48 - Robert Lemke

- Project changed from TYPO3 Flow Base Distribution to TYPO3.Flow

#3 - 2012-10-12 10:49 - Robert Lemke

- Category set to Core

- Has patch set to No

#4 - 2012-10-12 17:29 - Christopher Hlubek

- Status changed from New to Accepted

- Assigned To set to Christopher Hlubek

I also ran into that an hour ago, so I'll supply a fix for that.

#5 - 2012-10-12 17:30 - Gerrit Code Review

- Status changed from Accepted to Under Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at http://review.typo3.org/15531

#6 - 2012-10-18 17:27 - Karsten Dambekalns

Well, the interesting part: why are there no **Migration: 2012...** footers in the commit messages? If they are indeed lacking, this fixes a symptom of something else. Although the check in the suggested change makes sense - it will skip packages that were coded with PSR-0 from the start.

#7 - 2012-12-10 13:08 - Karsten Dambekalns

- Status changed from Under Review to Resolved

- % Done changed from 0 to 100
