Subject:	Media CE (HTML5 <video> element) controls don't work on Chrome				
Description					
When I use the Media CE (HTML5 <video> tag), the controls (play, pause, etc) don't work on Chrome (latest version). I think this issue is due to the presence of the mediagroup attribute					
http://stackoverflow.com/questions/12478093/video-element-play-button-non-functional-in-chrome-when-using-mediagroup-attr					

History

#1 - 2013-04-11 10:39 - Riccardo De Contardi

Update: tested now with TYPO3 4.7.7 and Chrome 26.0.1410.64 m and it seems to work...

The only thing I notice is that at the end of the movie, the control(play/pause) is stuck to the end of the progress bar,so if you want to play it again you must drag the cursor to the left end of the bar

Best regards
