<b>Has patch:</b>	Yes		
<b>Complexity:</b>	easy		
<b>Subject:</b>	Allow Object.yaml property value to be also an array		
<b>Description</b>			
<p>It would be nice to be allowed setting also arrays as values for Object properties.</p> <p>Use case: consider the following "foreign" repository:</p> <pre>1/** 2 * A repository for Comments 3 * 4 * @Flow\Scope("singleton") 5 */ 6class CommentRepository extends \TYPO3\Flow\Persistence\Repository { 7 8 /** 9  * @var array 10 */ 11 protected \$defaultOrderings = array('creationDate' =&gt; \TYPO3\Flow\Persistence\QueryInterface::ORDER_DESCENDING );</pre> <p>I'd like to modify this from my application, using Objects.yaml:</p> <pre>1TYPO3\Comments\Domain\Repository\CommentRepository: 2 properties: 3 defaultOrderings: 4 value: 5 creationDate: 'ASC'</pre> <p>This currently doesn't work because the handling (in DependencyInjection\ProxyClassBuilder) does only expect plain values.</p>

[FEATURE] Allow arrays to be set via Object.yaml property values

This introduces the option to also set arrays as plain native values in Objects.yaml. This allows settings like the following::

```
Acme\Foobar\Domain\Repository\BazRepository:
properties:
defaultOrderings:
```

value:

creationDate: 'ASC'

Change-Id: I2efc94ef6c95115ee61a2ee4b35d7614f54cfe46

Resolves: #42539

Releases: 1.2
