TYPO3.Flow - Bug # 42715

Status:	Resolved	**Priority:**	Should have
Author:	Steffen Ritter	**Category:**	Object
Created:	2012-11-06	**Assigned To:**	Karsten Dambekalns
Updated:	2012-12-11	**Due date:**	

PHP Version:	
Has patch:	Yes
Complexity:	
Affected Flow version:	(any)
Subject:	ObjectSerializer not capable of Collections

Description

Using the serializer on Objects containing instances of \Doctrine\Common\Collections\Collection will fail with an exception: Object of type "" not registered.

Even if the Doctrine persistence knows how to deal with Collections, situations might need to serialize the Object for Sessions, Encryptions and so on.

Add support to the ObjectSerializer is quite easy.

[BUGFIX] ObjectSerializer not capable of Collections

Serializing Objects containing properties being a
Doctrine Collection fails with an exception since the
ObjectSerializer is not capable of recognizing them.

This change adds support for Collection properties in objects
and arrays.
