

TYPO3.Flow - Feature # 42961

Status:	Resolved	Priority:	Should have
Author:	Bastian Waidelich	Category:	Package
Created:	2012-11-14	Assigned To:	
Updated:	2014-03-14	Due date:	
PHP Version:			
Has patch:	No		
Complexity:			
Subject:	Support non PSR-0 packages		
Description			
<p>Composers autoloader supports non PSR-0 packages if they follow the so called "PEAR-style" (see http://getcomposer.org/doc/04-schema.md#psr-0).</p> <p>A lot of packages on packagist.org still don't follow the PSR-0 standard. The only way to get those working with Flow, is to include the composer autoloader manually. I did this by adding following line to the Package.php of my distributions main package:</p> <pre>1require \TYPO3\Flow\Utility\Files::concatenatePaths(array(FLOW_PATH_PACKAGES, 'Libraries/autoload.php'));</pre> <p>But obviously this is just a hacky work around with unpredictable side effects</p>

Revision d36117c4 - 2014-02-07 23:13 - Christian Müller

[TASK] ClassLoader compatible with all composer packages

The ClassLoader understands all composer autoload types (PSR-0 autoloading, PSR-4 autoloading, classmap generation and files includes) and additionally has a faster resolution logic.

For additional speed, e.g. in Production context, you can run::

```
composer install -o
```

to let composer generate optimized autoloading maps.
