Sprint Focus:			
Subject:	Updates: Changelog and chooseable update		
Description			
It would be great to see the changelog **before** updating and to be able to choose which version (maybe not latest) to update to.

History

#1 - 2013-07-30 23:18 - Wouter Wolters

- Status changed from New to Needs Feedback

This is possible now in the EM before installation you can check the older versions also in a nice table. You can see this when you click on the title of the extension. Does this solves your problem?

#2 - 2013-07-31 01:31 - Stefan Neufeind

- Status changed from Needs Feedback to Accepted

But it's only available right before the update, right?

Previously it was possible to easily browse a list of all updates and their changes. Also it was possible to choose which version to upgrade to (maybe not the latest one) etc.
