

Getting Started - Bug # 4318

Status:	Resolved	Priority:	Should have
Author:	ziyad saeed	Category:	Content / Instructions
Created:	2009-08-25	Assigned To:	Karsten Dambekalns
Updated:	2010-10-20	Due date:	
Subject:	generateController only generates one controller at a time		
Description			
<p>According to the Getting Started guide alpha3. it says that using the following command (php Packages\Framework\FLOW3\Scripts\FLOW3.php Kickstart Kickstart generateController --packageKey Blog --controllerName Blog,Post,Comment) will generate the controllers for blog, post and comment.</p> <p>On Windows 7 with WAMP 2 and Powershell the command only generates controller for just one of them.</p> <pre>PS C:\wamp\www\FLOW3Tutorial> (php Packages\Framework\FLOW3\Scripts\FLOW3.php Kickstart Kickstart generateController --packageKey Blog --controllerName Blog,Post,Comment) + .../Packages/Application/Blog/Classes/Controller/BlogController.php + .../Packages/Application/Blog/Resources/Private/Templates/Blog/index.html</pre>			

History

#1 - 2009-09-04 11:45 - Robert Lemke

- Target version changed from 1.0.0 alpha 3 to 1.0.0 alpha 4

#2 - 2009-09-04 12:22 - Karsten Dambekalns

- Category set to Content / Instructions

- Status changed from New to Needs Feedback

- Assigned To set to Karsten Dambekalns

Could you try to enclose the controller names in quotes (double and/or single) to check if the commas get somehow eaten by the shell?

```
(php Packages\Framework\FLOW3\Scripts\FLOW3.php Kickstart Kickstart generateController --packageKey Blog --controllerName "Blog,Post,Comment")
```

#3 - 2009-09-04 14:24 - ziyad saeed

worked. Putting quotes generates 3 controllers for blog, post and comment and accompanying templates.

Did you use single or double quotes?

#5 - 2009-09-04 17:22 - Bastian Waidelich

FYI: For me (Windows 7) all three combinations (no quotes, single quotes, double quotes) work in fact.

Correction: single quotes do *not* work (they wouldn't throw an exception but create files like 'BlogController.php')

#7 - 2009-09-04 17:54 - ziyad saeed

I used double quotes and it generated all the required files in the correct path.

#8 - 2009-09-07 11:53 - Karsten Dambekalns

- *Status changed from Needs Feedback to Resolved*

Thanks for your feedback!

The tutorial has been updated in SVN and will be updated on the website as soon as possible.
