TypoScript Reference (TSref) - Feature # 43181

Status:	Closed	**Priority:**	Should have
Author:	Oliver Hader	**Category:**	
Created:	2012-11-20	**Assigned To:**	Chris topher
Updated:	2013-03-03	**Due date:**	
Subject:	Integrate NULL value handling stdWrap.ifNull and stdWrap.if.isNull		

Description

Please add the following new properties to TSref - one name is *if*Null (like ifBlank, ifEmpty) and the other one is *is*Null (like isTrue, isFalse), so please watch on "if" vs. "is" since that happened to me as well... ;-)

1) In stdWrap section, before ifEmpty property, add new property

  - Property: ifNull
  - Datatype: string/stdWrap
  - Description: If the content is null (PHP NULL type), the content is overridden with the value defined here.

2) In if section, before isTrue, add new property

  - Property: isNull
  - Datatype: stdWrap
  - Description: If the resulting content of the stdWrap is null (PHP NULL type). Since null values cannot be assigned in TypoScript, only the stdWrap features are available below this property.

See #43133.
