

Core - Task # 43186

Epic # 55575 (Accepted): Streamline JavaScript Code in the TYPO3 Backend

Status:	Closed	Priority:	Should have
Author:	Stefan Neufeind	Category:	Language Manager (backend)
Created:	2012-11-21	Assigned To:	Stefan Neufeind
Updated:	2014-02-02	Due date:	
TYPO3 Version:	6.1		
PHP Version:			
Complexity:			
Sprint Focus:			
Subject:	Use minimised version of jquery.dataTables-1.9.4		
Description			
extensionmanager already ships with a "min"-version of dataTables, also in version 1.9.4. Without further big changes it's easy to swap the version "lang" currently uses with the min-version and save around 300kb of JS in TYPO3-package as well as to be sent to the client (BE-user).
