

## TYPO3.Flow - Bug # 43541

<b>Status:</b>	New	<b>Priority:</b>	Should have
<b>Author:</b>	Karsten Dambekalns	<b>Category:</b>	Core
<b>Created:</b>	2012-12-03	<b>Assigned To:</b>	
<b>Updated:</b>	2013-08-14	<b>Due date:</b>	
<b>PHP Version:</b>			
<b>Has patch:</b>	No		
<b>Complexity:</b>			
<b>Affected Flow version:</b> Git master			
<b>Subject:</b>	Incomplete classes path detection for PSR-0		
<b>Description</b>			
<p>For the guzzle/guzzle package (as an example that uncovered this), our autoloading fails.</p> <p>First symptom is the error Cannot redeclare class Zend_Log in .../Libraries/guzzle/guzzle/tests/Guzzle/Tests/Log/Zend_Log.php on line 30 which cannot be resolved using object.excludeClasses configuration. Indeed the PackageStates.php contains:</p> <pre>'guzzle.guzzle' =&gt; array (   'manifestPath' =&gt; "",   'state' =&gt; 'active',   'packagePath' =&gt; 'Libraries/guzzle/guzzle/',   'classesPath' =&gt; 'tests/', ),</pre> <p>Note the classesPath entry... this is probably caused by this part of Guzzle's composer manifest:</p> <pre>"autoload": {   "psr-0": {     "Guzzle\\Tests": "tests/",     "Guzzle": "src/"   } },</pre>
