| **Subject:** | Use \ instead of _ for entity resources in Policies | | |
| **Description** | | | |

When defining entity resources in a Policy.yaml file, the entity type has to be the class name with \ replaced by _. The "reason" officially are YAML restrictions, but that is not valid.

[!!!][TASK] Use \ instead of _ for entity resources in Policies

When defining entity resources in a Policy.yaml file, the entity type
had to be the class name with \ replaced by _. With this change the
regular class name is to be used instead.

A code migration to adjust Policy.yaml files is part of the change.
