The solution of the related bug is is also helpful for this bug.

#2 - 2012-12-13 15:47 - Tobias Liebig

Could by solved by adding this TypoScript line:

```
lib.header_logo.file.treatIdAsReference = 1
```

Can this bug get closed (no action required?)

- Status changed from New to Needs Feedback

- Assigned To set to Johannes Krautschick

@Johannes: could you point us the the wiki page, so someone can take care to add a note there (may you can do that too?)

Here is the link to the wiki page: http://wiki.typo3.org/TypoScript_Header_Image

I don't know how to change it.

And there is a bug in sorting... if i upload two images (A.gif, B.gif) in the media field and save. And then i change the sorting and save again. In Frontend the sorting is still A,B and not B,A

Same problem with page resources. Sorting resources does not have an effect in the frontend.

```
lib.contentHeaderPic = IMAGE
lib.contentHeaderPic {
    file.import.data = levelmedia:-1, slide
    file.treatIdAsReference = 1
    file.import.listNum = 0
}
```

listNum = 0 show always the same image even if sorting changes.

- Target version deleted (6.0.1)

Hi Johannes Krautschick,

the wiki page changed, are the samples correct now?

@Kay and Stephan, then please open new issues on that and don't kidnap this one. :-)
