Subject:	When deleting a page from pagetree, the modal prompt window is missing pagetitle and childrens pagetitles.			

Description

When deleting a page from pagetree, the modal prompt window is missing pagetitle and childrens pagetitles.

In deletePageDialog.html the markup is that follows:

<div class="modal" id="pagetreeDeleteDialog">
    <div class="modal-header">   {{view T3.Content.UI.ButtonDialog label="x" target="parentView" data-dismiss="modal" action="cancel" class="close t3-button" title="x"}}
        <h3>Are you sure you want to delete the page "{{pageTitle}}"?</h3>
        <p>This will delete the page {{page}} {{children}}.
            This operation can be undone in the workspace management.</p>
    </div>
    <div class="modal-footer">   {{view T3.Content.UI.ButtonDialog label="Cancel" target="parentView" action="cancel" class="btn t3-button" title="Cancel"}}   {{view T3.Content.UI.ButtonDialog label="Delete" target="parentView" action="delete" class="btn btn-danger t3-button icon-trash icon-white" title="Delete"}}
        </div>
</div>
<div class="modal-backdrop in"></div>

The markup:{{page}} {{children}} doesn´t output anything.

Revision 403a1e6e - 2012-12-20 11:56 - Mattias Nilsson

[TASK] Add subpage removal hint to delete prompt

When deleting a page from the page tree the modal prompt description
now shows that subpages will be removed as well (if present).

Some cleanup is done along the way.
