TYPO3.Flow - Bug # 44139

Status:	Resolved	**Priority:**	Must have
Author:	Aske Ertmann	**Category:**	MVC - Routing
Created:	2012-12-20	**Assigned To:**	
Updated:	2013-08-24	**Due date:**	
PHP Version:			
Has patch:	Yes		
Complexity:	medium		
Affected Flow version:	Git master		
Subject:		UriBuilder includes all arguments of namespaced sub request	
Description			

When creating a link in a sub request using argument namespace the arguments of the current sub request is added to all links even though addQueryString is not set. This happens because the logic removing them were removed when fixing #42770. The problem is that fix removes the current arguments for sub requests correctly, but when the arguments of the parent request are added it adds those namespaced arguments which actually belong to the sub request again.

[BUGFIX] Prevent UriBuilder adding current namespaced arguments

UriBuilder no longer removes namespaced arguments from the
parent request causing all arguments of namespaced sub request to
be added to new request even though addQueryString isn't set.

The bug was introduced in Iba56bfffa9d8f47670afb1297575607b1b0023a8
